the cause for which the Y. M. C. A. War Work campaign is to be waged November 11-19 is to provide the comforts of home, as nearly as possible, for the boys in the service, to keep them physically, morally and socially fit—to fill their spare hours with worth while recreational, educational and religious activity. This great agency has the hearty approval of the government.

Some campaign slogans indicating the practical nature of "Y" War Work follow: "Help us to help the soldiers"; "For the service and efficiency of our 1,500,000 enlisted men"; "Help those who represent you"; "Give because you are glad to give."

In connection with the great national campaign for this urgent work among the soldiers and sailors, Medina county is called upon to do her share. It is proposed to raise \$10,000. Campaign workers will be at this big, important job, next week. The reports from our own boys at the training camps and in the trenches are numerous in appreciation of the "Y" work, which follows them wherever they go. It is believed Medina county people will meet this pressing opportunity, amid the many other worthy calls and more than "do their bit." The winter months, just ahead, make it necessary to act quickly and liberally.
